Pam,

I tried to send the 2005 amphibian report earlier, but the document is too large for your system. Perhaps Gregg will provide you with a copy.

Thank you for clarifying the USFS position that no further amphibian surveys are required by the FS for the North Lease project.

I will enter a "completed date" to our Master Technical Analysis Commitment List.

Gregg, sometime with a future amendment you may want to include that "completed date" to the MRP.

Thanks for all your help.
